Re: **Permit Fees for 2001-2002 Fiscal Year, Minerals Regulatory Program**

Dear Permittee:

We are now entering our fourth year of annual permit fee assessment as authorized by the Utah State Legislature. The fees provide funding to administer the mineral regulatory program. Revenues are used to process and maintain exploration and mining permit applications and for inspection of those sites. The minerals rules require the payment of an annual permit fee for all active exploration and mining permits. The annual fees are due by the last Friday of July for each year that a permit remains active (*a permit is active until the site is fully reclaimed and subsequently released by the Division*).

If the site is fully reclaimed and you no longer wish to keep your permit active, you may check the box on the form requesting a site inspection. This will suspend your fee payment until the Division can schedule an inspection to determine if the reclamation meets the required revegetation performance standard. If we find that reclamation and revegetation is complete, then the site can be released, the permit/file is closed and no fee will be required. However, if reclamation does not meet the required performance standards, then the assessed payment(s) will be due and payable within 30 days of our site inspection.

As a result of performing follow up inspection requests, we have found numerous instances where the reclamation was incomplete and the site could not be released.

**Note:** *Before you check the box requesting an inspection and file closure, please make certain that your site is fully reclaimed, that all mining related waste, trash and debris have been removed, and that the vegetation is well established.*

*To date, some operations have been turned over to the Utah Office of Debt Collection (ODC) for failure to pay delinquent fees. These operations will still receive a billing notice from this office for this fiscal year. Please pay the current year billing directly to this office. Any outstanding delinquent fees must be paid directly to the ODC.*

Please refer to the attached instructions for the payment of fees.

Sincerely,

D. Wayne Hedberg  
Permit Supervisor  
Minerals Regulatory Program
